

Dear Kimpton Nation:

It's Yammer Time!

We're excited to introduce Yammer, a secure social network just for our company that will help us to collaborate and communicate in new and better ways.

Here are some things you can do:

- Reduce the time you spend on email and in meetings by communicating online.
- Post updates of what you're working on.
- Ask questions, even if you aren't sure who will answer.
- Work in online groups to keep all conversations, updates and files for a project in one place.
- Make new friends and colleagues all over the country!

Get started on Yammer by clicking the button below. Be sure to visit the Yammer 101 group for tips on getting started, and stay tuned for messages from our communications manager, Vincent Intersimone, for tips on getting the most out of our new social enterprise communications tool.

So, get in there. Poke around. Make some friends, help someone, learn a lot and mostly, in the Kimpton spirit, have a ball.

We'll see on Yammer.

Stacey Ellis  
Director Public Relations
